Re: Wells listed under N0000/Unknown Operator on Fee and State leases.

All wells previously listed under N0000/Unknown Operator on Fee and State leases, have been changed back to the last known operator, based on information obtained from the well files. Wells that are currently in Shut-In, OPS, or TA status have been assigned Entity numbers. Bond availability has been reviewed for wells on Fee land. Operator's with unplugged wells will now show up on the monthly turnaround report under the last known operator, except for those wells with TA or OPS status. However, due to the fact that the majority of these operators no longer exist, and the fact that the wells have been in unknown operator status for several years, the operator's addresses have been X'd out to prevent mailing of the monthly report.

My intentions are to follow-up with St. Lands/Ed Bonner on lease cancellations, assignments & bonding for wells drilled on State leases.

The Tax Commission will be notified of these changes, and asked to continue to hold off on any action until DOGM advises otherwise.

I hope this change assists in determining future action regarding the unplugged wells within the state. I have attached information for your review. Please advise me of any additional steps to take.

Gentlemen:

Upon checking our files, it is noted that you have not as yet filed the "Well Completion or Recompletion Report and Log", Form OGC-3, for the above referred to well.

In as much as we are in the process of compiling data for our 1970 Well Completion Report, it would be appreciated if you would complete and forward the enclosed forms at your earliest convenience. This information will enable us to expedite the processing of our report and keep it accurate and complete.

Thank you for your cooperation and prompt attention with regard to the above.

Very truly yours,

DIVISION OF OIL & GAS CONSERVATION

Re: Utah Oil Company
Well No. Lake Hills State #1-B
Sec. 2, T. 6 S, R. 1 W,
Utah County

Dear Gale:

In view of the fact that Mr. Wilfried F. Rossberg is now deceased, it is suggested that you contact his bonding company relative to properly plugging the above referred to well in order that liability under the bond may be released.

As the depth of the hole is shallow, very little expense will be required to complete the work. However, would you please ask them to contact Paul W. Burchell, Chief Petroleum Engineer, when they are ready to commence operations.

Very truly yours,

DIVISION OF OIL & GAS CONSERVATION

CLEON B. FEIGHT
DIRECTOR

December '69 thru' June '70

Dear Sir:

Our records indicate that you have not filed a Monthly Report of Operations for the month(s) mentioned above for the subject well. Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1b, (U.S. Geological Survey 9-331, "Sundry Notices and Reports on Wells"), or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your cooperation with respect to completing these forms is greatly appreciated.

Very truly yours,

DIVISION OF OIL & GAS CONSERVATION

Encountered a show of oil and gas from 582' to 589'.

Encountered a water strat~~a~~ at 595'. This was plugged with 5 sacks of cement.

The drilling rig had other committments and the zone was never tested.

An option has been given to International Tungsten Corp. to take over as the operator. They are planning on drilling ahead with rotary tools to 2500'.

The well is temporarily shut-in pending the rotary operation which should commence shortly after the first of the year.

Because of the shut-in status~~e~~ this will be the last report for the present.

Re: Well No. Lake Hills State #1-B
Sec. 2, T. 6 S, R. 1 W,
Utah County, Utah

Gentlemen:

Insofar as this office is concerned, approval to drill the above mentioned well is hereby granted. However, approval is conditional upon the following:

1. A surveyor's plat being furnished this office.
2. "Well Completion Reports and Subsequent Reports of Abandonment" submitted for the #1 and #1-A wells. (Forms Enclosed)
3. The plugging of the #1 and #1-A wells by salvaging as much of the 6 5/8" casing as possible, filling the hole to 10' of surface with shale and clay followed by a poor boy cement plug from 10' to surface, with a regulation marker installed. Also, it will be necessary to contact the Division prior to abandonment operations so that a representative may witness the work.

Should you determine that it will be necessary to plug and abandon the #1-B well, you are hereby requested to immediately notify Mr. Paul Burchell, Chief Petroleum Engineer, Home: 277-2890 - Salt Lake City, Office: 328-5771.

This approval terminates within 90 days if the well has not been spudded-in within said period.

Utah Oil Company
June 4, 1969
Page 2

Enclosed please find Form OGC-8-X, which is to be completed whether or not water sands (aquifers) are encountered while drilling. Your co-operation with respect to completing this form will be greatly appreciated.

The API number assigned to this well is 43-049-30002 (see Bulletin D-12, published by the American Petroleum Institute).

MEMO FOR FILING

Re: Utah Oil Company
Lake Hills State #1-B
Sec. 2, T. 6 S., R. 1 W.,
Utah County, Utah.

On November 6, 1969, the above well was visited.

It was reported to this Division that the above named well had encountered hydrocarbons in commercial quantities and would obtain a new field discovery status. A trip was made to the well site and it was learned that the rumor was incorrect and totally false.

Met with the driller, Mr. Charles Francis, and he informed me that they had completed cabletool drilling to a total depth of 595' without any show of hydrocarbons.

The hole was found wet and has a static fluid level of about 200' below the surface. The quality of the water can be considered poor. The driller was in the process of moving the rig off the location. He stated that Mr. Rossberg owed him \$900 and he was not going to proceed with any further work.

Sec. 2, T. 6 S, R. 1 W,
Utah County, Utah

On July 3, 1969, the above named well sites were visited.

An inspection was made of Mr. Rossberg's operations and it was learned that he had contracted Mr. Charles Francis to cabletool his Lake Hills #1-B well. At the time of the visit, Mr. Francis was dressing bits and had made hole to a depth of 300'. To date, they have set 150' of 8" surface casing and I recommended that the blowout preventor be installed as soon as possible. They propose to install a manual 8" series blind blowout preventor on the surface pipe. It was further recommended that they dig a ditch south of the location to catch the drilling fluids and allow them to drain in the nearby #1 pit.

The #1 well site has not been plugged to date. The #1-A well was reportedly plugged, however, it was covered over and no marker has been set.
